## When Bad Things Happen

The book title is "When Bad Things Happen"

It is a guide book which teaches kids how to cope with bad things. This book tells us what bad things are, how kids feel when there are bad things and most importantly, what kids should do when bad things happen.

After reading this book, it recalls one of my bad experience — two year ago, the day was the first day of summer holiday. It was nine o'clock, I was lying on the bed. I was thinking how to spend the long long summer holiday. It was already eleven o'clock, why mother did not wake me up? I went to her bedroom, she was still lying on the bed. She said to me "My back feel pain, can you help me to get up?" So I helped her, but I failed to do so. I dialed 999, ten minutes later, the ambulance came. They brought my mother to hospital. I went with her. She went to check her spinal cord, after checking, the doctor said to

me "Your mother should stay at home for few days, let her rest, so she will recover soon."

After returning to home, I called my father, he was staying in China, he said "I can not come home at this moment." I was very worried, I did not know how to look after my mother. In these days, I always bought barbecue meat rice for lunch and bought chicken rice for dinner because I could not read menu. My mother told me "You had to learn how to orde the other kind of food.

You can ask captain. So the next day, I learned the name of the set lunch. My mothe praised me. I also learned how to wash clothes, hang the washed clothes, clean the floor and ..... In these few days, I felt so tired. I hoped the time did not go so fast, I did not want the next day come so fast, I did not like to do housework. I hope my mother could recover soon. But they did not come true.

A few days ago, my mother was got well!

When the bad things happen, we have to learn
